To AmisAmies Students  
12plus & 15plus

Please, MixTalent friends,  
help the children 6plus &  
9 plus with this webwork.

Read this task for them,  
explain we will put their  
word, the drawing and  
sentence in the

ABC-expo.

It can be nice for the  
AmisAmies 6plus to sing  
the ABC together with  
you. They will remember  
the letters better by  
singing them first.

Of course we have an  
ABC eCahier for  
students 9plus too.

We  
will put your stories and  
art in & around  
Bluenalia's Notebook!

We wish you all a lot of ABC pleasure in learning and working together! Bluenalia and we are looking forward to a receive your webwork and art. We will give it a nice place in the expo and eCahier. Bye, bye from Alexis in America, [Bluenalia](#) – [Ranjalia](#) – [Jaunalia](#) – [Rosalia](#) – [Afualia](#), your webwooshes & Greet in Holland

### Thank you, MixTalent Assistants 12plus & 15plus

Not in every medical setting, situation at home or other place is a teacher available; yet one is longing for learning and a broader horizon. Alexis and I have experienced that ourselves sometimes. It is so great you, our MixTalent Students 12plus and 15plus are willing to be our MixTalent assistants for the younger ones. We will make PDF's, PowerPoint Presentations and small eFilms to help you with your teaching job.

Thank you so very much, Alexis & Greet, your webteam

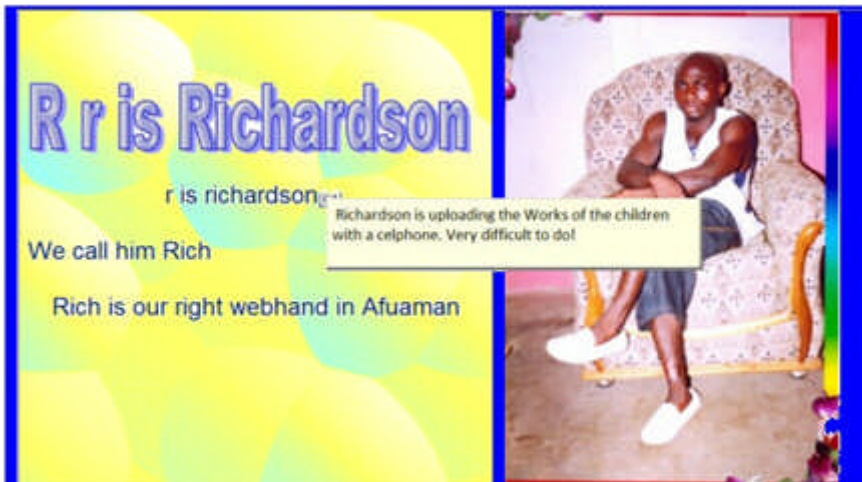

## Thank you!

Alexis and I are so glad Richardson in Afuaman is our assistant in Ghana. The Afuamanschool in Ghana doesn't have a computer or other equipment. Richardson is collecting all the webwork on a cell phone; he is travelling all the time between the school and an internet-café. This is so amazing!

That is really MixTalent, in the best way. The students in Afuaman are our physical mobile friends, we and our students in hospital are web mobile friends to them. Together we are mixing head, heart and hand; thinking, feeling and doing and are building basics and bridges between worlds.
